Version 1.1

EVENT FORMAT

Welcome to the first Adeptus Titanicus event hosted by Goonhammer.

This will be a narrative campaign, with a series of games played over two days in which each mission can impact the next and ultimately your faction's success.

This is **not** a competitive event and we are looking for a more relaxed vibe.

We're all here to slam our Titans into each other and set off some chain reactions.

Be excellent to each other and leave the 5 Vortex missile Corsair at home.

FACTIONS

Tickets are sold on a per faction basis, Loyalist and Traitor.

In the case of drops or other unforeseen circumstances that the spare player is unavailable, volunteers may be asked for to change faction. Note that players who swap factions will not be forced to change allegiance if they don't want to.

Some of the rounds are played as Doubles, these teams are not fixed and will be formed amongst the faction on the day, so don't fret if there are an odd number of your group attending.

RULES, FAQs AND ERRATA

The tournament will use all Games Workshop rules publications, FAQs, and errata published up to the 14th of May. Anything published after this date will not be used (subject to TO discretion)

Please indicate if in the final round you would rather play 2500 points or 1250 point doubles (potentially against one of the players with 2500), we will endeavour to match people up accordingly.

Soggy: *You know you want to take that Warmaster/Iconoclast with full escort or the full Extergimus list...*

RESTRICTIONS

Several event specific restrictions will apply to the weekend beyond the normal rules

- No duplicate Personal Traits
- Crusade Legios are a no go
- All Titans must be from a Legio, no denying your opponent SP
- A limit of one Vortex missile per 1250 points (ie one for all games except the final round)

All models are to be *Battle Ready, painted and based on their correct bases as a minimum. All models are to be modelled WYSIWYG, however feel free (and please do) to go crazy with conversions as long as it is still clear to your opponent what is going on.*

CAMPAIGN Specific Rules

MISSION SCORING

Each mission will have up to 30 VP to be scored. Primary and Secondary objectives are capped at 15VP each. Tertiary objectives from stratagems or personal traits are capped at 5VP and will count towards the secondary cap of 15 VP.

STRATAGEM ARSENAL

As part of creating your battlegroup, select eight stratagems which will be available to you to choose from for the weekend. These eight stratagems are to be recorded on your roster, which will be available for your opponent on the day. Usual rules for how many SP you get per game apply, although the path of the campaign may affect this number.

DOUBLES FORMAT

When playing a doubles game, each team counts as one player, for example one player on each team will roll for the Opus etc. A team will have a shared pool of SP to pick stratagems from and no duplicates are allowed, except for stratagems which must be played at the start of the game which upgrade a unit – e.g. *Experimental Locomotors, although these must target a unit from each players battlegroup.*

KNIGHT BANNERS AND SCALE

Knight Banners increase in scale for each multiple they are of the minimum banner size, rounding up for the purpose of stratagems (Outflank) or for holding objectives.

For example, a banner of two Cerastus are scale 4, but a banner of three or four will count as scale 8

VOX BLACKOUT

If played during the first strategy phase of the game, Vox Blackout has it's normal effect but does not prevent the use of stratagems that *must* be played on the first round – e.g. *Overcharged Cannon*

WHAT YOU NEED TO BRING

- Your Battlegroups
- Two printed copies of each of your battlegroups
- Dice, templates measuring tapes, pen/pencil,
